

## early music makers

Early Music Makers creates original educational musicals for use in Early Years and Foundation Phase groups. Each musical pack comes with a script, sheet music, backing and rehearsal CD and an extensive education pack to extend themes into the classroom.

**“Pure joy! Children will love it; adults too. This is irresistible!”**

Director of Childhood Studies; FE College

TARGET also offers workshops based on Early Music Makers musicals that assist with school groups who are staging the productions. These range from one-off sessions to help set the plays to whole series of classes to create a musical from start to finish.

A great resource for schools or youth groups without a drama or music specialist.

## act fact workshops

Act Fact workshops introduce children to the fun and challenges of drama while tying in with the national curriculum's *Learning through Play* guidelines.

Workshops are themed to fit in with various school topics, making Act Fact workshops a useful extension of classroom learning:

### the tudors...

Travel back to Tudor times and discover what it was like to live in a society ruled by an over-bearing monarch. Put Henry VIII in the hot-seat or have a go at running the country! Just be careful you don't lose your head...

### fairytales and pantomimes...

Learn about theatre and panto conventions and the history of the stage. Play games to practice theatre terminology and try improvisation based on your favourite classic tales!

### the environment/nature...

If you look out of the window, what do you see? Learn about the animals that live at the bottom of the garden and make your own soundscape thunderstorm!

**Why not commission a new workshop for your school or youth group?**
